a. This modification is written for clarification and addition to Section 2.5 of Technical Exhibit 3 to the Statement of Work (SOW) for Protective Coating Maintenance, revised March 1995. This clarification and addition is applicable to Options 1, 2, 3 and 4 ending 30 September 2000, should the option periods be exercised in accordance with the terms and conditions of the contract.

2.5.1 Protection of Fire Detection/Suppression Equipment. Any questions concerning the protection of Fire/Detection/Suppression Equipment should be directed to the Sheppard AFB Fire Department, Fire Prevention Section at 676-2104.

2.5.1.1 Alarm Initiating Devices. Alarm initiating devices such as heat detectors (fixed-temperature, rate-of-rise, or combination), flame detectors (ultraviolet or infrared), or smoke detectors (photoelectric or ionization) and manual pull stations shall be protected from painting. Fire alarm audio/visual devices will be painted. The Fire Department will be notified prior to and upon completion of painting of fire alarm audio/visual devices.

2.5.1.2 Fire Suppression Devices. Portable fire extinguishers, sprinkler system heads, and initiating devices for installed fire suppression systems shall be protected from painting. No component or operating device of an installed fire suppression system will painted without prior approval from the Fire Department. This includes, but is not limited to, sprinkler branch lines, feeder mains, valves, risers, gauges, compressors, and inspector test valves. Extinguisher brackets and cabinets may be painted.

2.5.1.3 Emergency Devices. Fire exit signs or fire exit directional signs shall be protected from painting. Fire rating levels affixed to doors, windows, or other building components shall not be painted or removed. Emergency light units or components will not be painted without prior approval from the Fire Department.

b. The total estimated amount of the contract, $959,189.45 (block 22 of the SF 1442) and terms and conditions are unchanged.
