

## Mosquito surveillance traps - Zika virus

82nd AMDS Public Health Flight

SHEPPARD AIR FORCE BASE, Texas -- As part of our mosquito surveillance program, the 82d AMDS Public Health Flight will place mosquito traps at various locations on Sheppard AFB. These traps are designed specifically for collecting the vectors of Zika Virus, *Aedes aegypti* and *Aedes albopictus* mosquitoes. They are white plastic circular traps with an external battery and black funnel catch piping. Please do not disturb these traps. You may inadvertently release trapped mosquitoes.

As a reminder, please keep your outdoor living areas free from standing water to the greatest extent possible.

We also strongly recommend the use of mosquito repellent containing at least 25% - 30% DEET.

Please call the Public Health Flight at 676-3052/1874 for questions regarding mosquito surveillance.

### TMO: PCS Season has begun

Permanent Change of Station season is already underway, and the Traffic Management Office is reminding all who are slated to move to contact them as early as possible. There is only one authorized moving company in the area, so the sooner you engage with TMO, the more likely you are to get your desired move date.

JPPSO has been receiving a lot of short notice shipments. Please enforce a 3 weeks' notice for ALL shipments with and through your local TMO. Shipments requiring pick up in less than 3 weeks must be coordinated with the applicable JPPSO prior to submission (NOTE: Excludes applications for tech training students). Lastly, please include an alternate pack/pick up dates from customers on ALL shipments.

For more information about PCS shipments, call the TMO Office at 676-5499.
