

Instructions for UAS (Unmanned Aircraft Systems) use on Sheppard AFB (SAFB):

UAS includes, but is not limited to, quadcopters, remote controlled aircraft and drones. Use of UAS' within the confines of SAFB must be approved by the proper authority before flight can occur.

If you need to use an UAS within the confines of SAFB, follow the instructions below:

- If you are planning a flight within the next 24 hours or less, please contact Sheppard Command Post at 940-676-6266.
- If you are planning a flight further in the future (more than 24 hours ahead), please email your request to 80OSS.sheppard.UASDroneRequest@us.af.mil. and response will be provided within 72 hours
- Please be ready to provide the following information to Command Post or provide to the email above:
 - o Name
 - o Phone number
 - o Reason for use
 - o Location, date, and time of use

NOTE: Recreational use of UAS' on SAFB will not be authorized. All other reasons for use will be considered for approval.
